MRS. ANNIE MAHER

Wife of Mr. Henry Maher, Died Wednesday After Lingerling Illness.

Death Was Caused by Cancer of the Stomach.

On Wednesday evening, March 13, 1912, Mrs. Annie Maher, wife of Mr. Henry Maher, died after a lingering illness of cancer of the stomach. Mrs. Maher was fifty-four years of age and had always been a devout member of the Catholic church. She had been in poor health for a long time and for the past two weeks her condition had been critical.

The funeral was held at St. Patrick's church at 10 o'clock Friday morning, services being conducted by Rev. Father Edward B. Rohrer, and the interment followed in St. Thomas' cemetery.

She is survived by her husband and seven children, William, John, Michael, James, Miss Margaret, Mrs. B. J. McDonald and Richard. In the death of Mrs. Maher the community has lost a splendid Christian woman, a kind and true friend, a loving and affectionate wife and mother. To the sorrowing loved ones we extend deepest sympathy.

Training Stable.

Mr. H. B. VanEvera, who has been training horses for many years, has opened up a public training stable at the Montgomery County Fair Association track. Mr. VanEvera has an enviable reputation as a trainer and his stable is sure to be a good one. He has authorized us to say that any stock placed with him will receive careful personal attention and that he has employed the best grooms possible and that your stock will be given every attention and care. Mr. VanEvera handled the now famous Mainleaf in his two year old form, before he was purchased by his present owner, Mr. J. R. Magowan.

CARTER-ARMSTRONG

Miss Mary Lewis Armstrong and Mr. R. L. Carter to Marry.

Wedding to Take Place This Morning at 9 O'clock.

Miss Mary Lewis Armstrong, formerly of this city, where she was united in marriage this morning, (Wednesday), to Mr. R. L. Carter, of this county. The wedding will take place in Huntington, W. Va., the home of the bride, at nine o'clock.

Miss Armstrong is well remembered in this city, where she has many relatives and friends. She is a lovely woman, possessing an amiable disposition, is highly cultured and refined, and by her gracious and charming manner has won countless friends.

Mr. Carter is a wealthy farmer of the Flat Creek neighborhood and is a gentleman of the highest character, enjoying the respect and esteem of all who know him. The couple will make their home at the groom's home in this county. It affords us much pleasure in wishing them a happy and prosperous married life and are indeed glad to welcome Miss Armstrong back to this county.

A committee from the Business Men's Club, composed of Messrs. John S. Frazer, W. A. Samuels and A. B. Oldham were in Frankfort last week to interview Mr. G. B. Wall, Assistant to the President of the Chesapeake & Ohio Railway Company, in an effort to secure from the railroad company a lot upon which to erect a loose leaf tobacco warehouse in Mt. Sterling. Mr. Wall is to take the matter up with the proper officials and the committee expects to hear from him in a few days.

NEW LOOSE LEAF TOBACCO WAREHOUSE

Organization of Company and Selling of Stock Started in This City Saturday---Many Prominent Men Interested.

NEARLY TWENTY THOUSAND DOLLARS

RAISED IN ONE AFTERNOON.

The meeting of the business men of the city with the growers of the county held at the court-house here Saturday was well attended. The meeting was called to order by Dr. W. R. Thompson, President of the Business Men's Club, and Major D. J. Burchett was chosen Chairman and Mr. J. G. Roberts, Secretary. The object of the meeting was explained by Mr. J. G. Winn, President of the Montgomery National Bank, in a clear, concise manner showing the wonderful opportunities for a loose leaf house here and explaining the great stimulus it would have on the various lines of business in the city. It has been decided by those who started the movement that it would be best to have a large number of people interested in the enterprise and ten shares was fixed as the present limit for any one person to own. It was reported that there are two men willing to build the warehouse and another report that ten men are willing to build it should the farmers not care to take hold of the proposition. The Chairman called for signers and in less than twenty minutes nearly fifteen thousand dollars had been pledged

and several men who took papers to get signers, reported nearly five thousand dollars more signed up after the meeting adjourned. The Chairman appointed committees to solicit stock in the adjoining counties, to look toward the selection of a site, to visit Lexington, Carlisle and other points in order to decide on the kind of building to be erected, etc.

Had there been no limit placed on the number of shares of stock that each man could have it would have been an easy matter to have raised \$50,000.00. It is the intention of the promoters to raise \$35,000.00, and if this is not sufficient to build the house, etc., then more will be raised, as it is their intention to build as fine a plant as any in the State. All four banks of the city had representatives present and each of them subscribed for ten shares of stock. The meeting adjourned until Friday, March 29, at which time a full report from the various committees will be had and other important matters taken up. The business men of the city have joined hands with the farmers and the success of the undertaking is assured.

NOTICE TO THOSE WHO ARE SELLING STOCK

In order to keep accurate account of the stock subscribed and to facilitate the work of the committee, everyone who is soliciting stock is requested to telephone the name and address of the parties subscribing and the number of shares taken, each night to

G. B. SENFF, 'PHONE 272

who has agreed to keep a tabulated report of same for the committee. This means the saving of much time and also keeps the amount of stock sold posted up daily so all who are interested may see just what progress is being made.

Mr. Senff has already compiled a list of those who subscribed at the meeting Saturday and all who have secured pledges since will please 'phone him the above information daily.

Mrs. Swaffield Dies

After a Long Illness.

News was received here Thursday announcing the death of Mrs. R. H. Swaffield, which occurred at a hospital in Louisville. Mrs. Swaffield is the wife of Col. R. H. Swaffield, the popular representative of the Globe Tailoring Co., Cincinnati, who makes headquarters at Punch & Graves when in this city.

Mrs. Swaffield had been an intense sufferer and death came as a sweet relief. Col. Swaffield has the deepest sympathy of his many friends here in the loss of his loving helpmate.

SUIT ON PEACE BOND

Brought by Commonwealth Against F. M. Brown.

Drew Gun on Officer Smith and Shooting Narrowly Averted.

At the September term, 1911, of the Montgomery Circuit Court, F. Marion Brown, who had been giving the officers a great deal of trouble because of violations of the liquor laws at Jeffersonville, was required by Judge A. W. Young, on motion of the Commonwealth, to give a bond to keep the peace for one year in the sum of \$250, which he did, with J. E. Henry, of Montgomery county, and C. H. Chambers and Ben Bellamy, of Menefee county, as sureties.

Court day, Brown was arrested by Policeman E. W. Smith and yesterday pleaded guilty in the Police Court to the charge of drunkenness and disorderly conduct and was fined \$10 and costs in each case. He was also found guilty by Judge Ben R. Turner for carrying concealed a deadly weapon, which the proof disclosed he had drawn on the officer and was fined \$30 and given twenty days in jail.

Immediately following his conviction on the charges named, Commonwealth's Attorney W. B. White instituted a penal action in the name of the Commonwealth against Brown and his sureties in the Montgomery Circuit Court for \$250, based on his alleged violation of the terms of his said peace bond.

Isola Dinelli Married.

IS YOUR MONEY WORKING FOR YOU?

STRAIGHT TALK NO. 2

On Investment in the Capital Stock of Insurance Companies

A man with a Dollar or with a Thousand Dollars has an advantage over his neighbor without money only to the limit of the earning power of the Dollar or Thousand Dollars! A man without money has an earning capacity limited to the value of his services, which is fixed by others. A man with money has the value of his service plus the income from his money, which income is fixed by his own ability and discretion. There are few, if any, men who have become rich through hoarding their surplus income, but every community contains within its borders men who have attained wealth through judicious or fortunate investments.

A few dollars invested naturally brings an income greatly smaller than the income from a man's labor, whereas, more and more as money is saved and invested, the income therefrom soon equals and then quickly out-distances the income from labor alone, until finally, in thousands and thousands of cases, a man is forced to give his entire attention to the employment of his capital.

All investments are necessarily more or less in the nature of speculation, but experienced investors have clearly defined the method of determining the safety and desirability of investments, and those who have had less experience in judging the merits of the investments, may well study and apply the tests applied by those who have had experience and who have become wealthy in the disposal of their money along lines that bring greatest returns.

APPLY THESE TESTS TO EVERY INVESTMENT

FIRST—INVESTIGATE THE MEN BEHIND THE PROPOSITION

No Company is better than the men who manage it.

It is safe to assume that men who have made successes of their own businesses may be depended upon to act with judgment and discretion when conducting the affairs and handling the money of others. Few men enter an organization with any other purpose than to make money, and if the Public is invited to join its money with theirs, a square deal will be had from square men, and the division of profits should be equal, dollar for dollar.

If a man asks another to join him in an investment, the first question to ask is "Have you put YOUR money into this investment, and, if so, HOW MUCH and was it upon the same terms as you have asked of me?"

SECOND—ASCERTAIN IF THE PURPOSE OF THE ORGANIZATION IS WORTHY AND HAS MERIT.

It can be safely assumed that an unworthy or unbusinesslike purpose will not succeed. Corporations organized to sell a product for which there is a demand, should, if properly managed, yield handsome profits to the Stockholders.

An investment in a corporation organized to meet a great and growing demand has a future as well as present value, and no purchase of stock should be made except on a basis of 10 years, or more.

The salability of a Company's product has probably the most important influence upon its dividends.

THIRD—LOCATION AND COST OF DOING BUSINESS

This should be the subject of careful inquiry before investing your money. A concern doing business at a considerable distance from its domicile necessarily does so at a greater cost than one located within the territory where it is doing business.

The cost of marketing a product touches directly at the heart of an investment. A Concern, that from the nature of its business employs great numbers of salaried men and maintains offices and incurs other great expenses, is dependent for dividends upon the profits, less the abnormal agency or sale expense.

The successful concern must keep its sale expense within reasonable margin and many enterprises are "top-heavy" with expense, because of the difficulty in marketing the product.

FOURTH—COMPETITION

There are only four live stock insurance companies doing business in the United States. Last year the premium income of these companies was \$772,387.00, and the losses paid \$406,398.00—a saving between losses and income of 49%.

The income the same year by companies doing business in Germany, amounted to \$3,026,273.00.

In Sweden, alone, there are 46 live stock companies operating, with an annual income of over \$1,000,000.00.

In ten years the average death rate of insured horses was there found to be 2.38 and in Denmark only 3.02 per cent.

APPLY THESE TESTS TO AN INVESTMENT IN THE CAPITAL STOCK OF THE KENTUCKY LIVE STOCK INSURANCE COMPANY

FIRST—ITS MANAGEMENT

The management of the Company is in the hands of a Board of Directors nearly every one of whom is an expert along some line of the live stock or insurance business.

Ask any farmer or live stock man concerning the reputation of these men and their desirability as managers of a live stock insurance company. Their success will mean your success.

SECOND—PURPOSE OF ORGANIZATION

This Company was organized to meet a great and constantly growing demand for insurance upon live stock in this and other Southern States.

Live stock insurance provides the farmer with immediate indemnity in case of the disease or death of animals, stimulates the prevention of disease and tends to improve the general hygienic condition of live stock. It shares the loss in case of the death of his live stock and in this way develops and promotes the breeding of fine stock.

THIRD—LOCATION AND COST OF DOING BUSINESS

Kentucky is an ideal location for a live stock insurance company, the name of the State being a synonym for the highest attainments in breeding. The cost of the production of live stock insurance business is smaller than that of any other form of insurance. The business is written as a side line by fire insurance and life insurance agents and others without any agency expense to the Company.

This Company has an application for the territory of Texas, Arkansas and Louisiana, with a guaranteed yearly premium income of \$100,000.00. From this business, alone, it is fair to assume that a dividend of 25% could be paid upon the capital stock of the Company.

FOURTH—COMPETITION

While it is true that companies, like individuals, are more industrious when competing with others, it is also true that a marketable product for which there is a great demand, will yield greater profit if there is little or no competition. Monopolies are very few in number. It is said that there have been less than 30 basic patents granted by the United States Patent Office since its establishment. The well-managed company that pioneers in the sale of anything in great demand, in a community where it has practically a monopoly may be reasonably expected to pay greater dividends than another concern that sells its product under high pressure or in active and aggressive competition with rival concerns in which the question of price is all-important.

Read what the "Spectator" says of Live Stock Insurance Companies in its issue of November 30, 1911:

PROFITS OF THE BUSINESS

"When we contemplate the magnitude of these colossal figures, and then consider the fact that today one live stock insurance company is writing more than half of all the business in this country, and that that business is less than a million a year, it is worth a passing thought at least to consider the possibilities of this line of endeavor. The possibilities are undoubtedly present, and becoming better all the time, the number and value of live stock, especially horses, in this country being on the constant increase. The very favorable mortality experienced by foreign companies on insured horses seems to presage a like experience here, and the increase in their number should mean more and better business to the live stock underwriters. "Does it pay?" "Can it be made to pay?" queries the prospective stockholder. Why not? The business is here only to be written, and the only live stock company that has been doing business long enough to be a criterion has in twenty-five years increased its capital from \$50,000 to \$200,000, and has paid dividends of \$156,500."

LET US send you some interesting reading matter relating to the profits from Live Stock Insurance Companies.

Mrs. Lula Walden, of Gramlin, S. C., followed this advice. Read her letter: "I was so weak, when I first began to take Cardui, that it tired me to walk just a little. Now, I can do all the general housework, for a family of 9." Try Cardui for your troubles. It may be the very remedy you need.

The last meeting of the State Teachers' Association of Oklahoma saw 6,000 teachers in attendance. The largest session of the State Association in Kentucky did not have more than 800 teachers. The meeting in Louisville on June 25 is expected to be a record breaker, and the officers of the Association are confident that 2,500 teachers will be present on this occasion.

WORLD'S LARGEST PICTURE

The largest picture in the world has just been completed, in Rome. The huge panel, the work of the artist Sartorio, is destined for the hall of the Parliament building. The work is 18 feet high and 400 feet long, and represents the history of the deliverance of Italy, and contains 285 figures of persons of an average height of nine feet nine inches. This enormous painting is longer than the famous paneling of the Pantheon. The artist spent thirty-one months on the work.

Influence.

"I have no influence," says one. What has become of it? I never had any." Yes, you had. When you were an infant only a day old you had a powerful influence over your mother and other members of the household. What has happened to your influence? In some cases it has been wasted by waywardness. A single vice will kill the good influence of a strong man. Each one has a tremendous energy stored up within him. It may not be physical energy or intellectual energy, or power of wealth or office. It is energy of love, of life, power to comfort, to encourage, to inspire, to move others. Keep it in daily exercise and it will grow more and more. Use it for good and it will bring a rich reward.—Sel.

REMARK ALL TOO SADLY TRUE

Seldom indeed Has the Poet in Any Age Been Noted for Remarkable Affluence.

Monsieur de Tarde, who was one of the greatest of modern sociologists, sometimes exercised the functions of a judge at Sarlac. One day the gendarmes brought before him a sadly tattered tramp.

"What is your profession?" inquired M. Tarde.

"I am a poet," said the vagabond. One of the gendarmes interrupted: "That's not a Christian trade."

The judge himself sometimes teased the muse. Laughing, he asked the beggar to recite some of his verses. The tramp drew from his pocket a ragged notebook. On the yellow leaves the judge read some ballads and some sonnets, which sang of love of country. Handing back to the poet his notebook, he added thereto a hundred sou piece, saying: "You may go!"

"But," expostulated the gendarme, "he has no domicile."

"My friend," said M. de Tarde, sententiously, "he has the usual domicile of poets; the open road is his dining room and the sky is his roof."—Le Cri de Paris.

SHOOTING MADE MORE COSTLY

Taxpayers as Well as Sportsmen Will Have to Pay More for Their Cartridges.

The cost of killing a soldier in battle is going to be appreciably increased by the rise in the market price of lead.

The cartridge manufacturers who fulfill the British war office contracts are at present supplying large orders placed some months ago at old prices, but, the London Daily Mirror is informed, new contracts will be revised in connection with the price of lead, which has largely increased during the last six months.

"Not only the lead, but the nickel casing to put it in, and the brass for the cartridge case have also increased in price. In fact, nearly all the base metals have gone up during the year," said the London manager of a well-known manufacturing house.

"The rise in lead has also increased the price of sporting cartridges from 5 to 7½ per cent, so that shooting partridges and pheasants will cost you more. The cheapest cartridges are now 8s per 100 and the best cost 16s."

CHILDREN AND WILD FLOWERS.

"More and more should children be taught and encouraged to pursue the study of wild flowers in their natural haunts. It affords a constant source of pleasure and recreation. It brings the child in direct contact with the wonders and beauties of nature and outdoor life. It cultivates loving dispositions and tender sympathies. It affords a delightful means of enjoying pure air and good exercise and results in ruddy cheeks, healthy appetites and happier homes, privileges that every child should enjoy."—F. W. Stack in The Magazine Flowers.

SURMISING.

"Here is something in this newspaper I don't understand."

"What is it about?"

"A news dispatch tells of a prominent man who has just bought some Angora bitters. Do you suppose the reference is to Angostura bitters?"

"It may possibly be that, though I am more inclined to think that word 'bitters' may be a typographical error for 'butter' and the reference is to Angora goats."

JOURNALISM.

Editor—See here! You didn't send us in a single word on the burning of the city of Wangdoodle, one of the biggest stories of the war.

War Correspondent—Of course I didn't. Didn't I set it myself in order to attract the attention of the other correspondents so I could beat them to the telegraph office and give you the "scoop" in that skirmish by the Tzegang river!—Puck.

RIGHTEOUS ANGER.

"An aviator who has never been known to stay up in the air more than a few minutes at a time, jumped on a bystander the other day and nearly beat him to death."

"Why do you suppose he did that?"

"It seems that the bystander called him a fall guy."

A WORTHY ENTERPRISE.

Realizing they have neglected a great opportunity too long, our farmers and business men are preparing to build an adequate loose leaf warehouse here. This should have been done a year or more ago, but the enthusiasm shown in Saturday's meeting guarantees the success of the movement, so far as raising the necessary funds is concerned, and we see no reason why such a needed improvement will not pay a good dividend to the investors.

We are especially glad to see the farmers and citizens of the city working in harmony for their mutual interests. There never should be any conflict between them, since their interests are identical and anything that will help either the farmers or residents of the city, will be of benefit to the entire county.

It is a pleasure for us to give this enterprise our hearty support and predict it will not only prove a great financial success for the stockholders, but of vast benefit to our county.

So long as men high in the councils of the nation denounce the Courts and sow seeds of discord among our people, just that long may we expect to hear of such outrages as that recently enacted in the court room at Hillsville, Va. The man who seeks to teach our people to disrespect our Courts is an enemy to society.

We are certainly thankful to St. Patrick for bringing us the first pretty day in about five months.

HON. WILL A. YOUNG.

Hon. Will A. Young, of this city, is being earnestly requested by leaders of his party, not only in his home county, but all over the district, to make the race for congress in the Ninth Congressional District. Will A. Young is known as one of the greatest criminal lawyers in the south. He is a man of handsome personality and is shrewd and eloquent. He has served as County Attorney of this county, Commonwealth's Attorney and was a member of the Kentucky Legislature—in all of these prominent offices he served with distinction.

It is said that "Bill" Young has more Republican friends than any other democratic politician in the State of Kentucky.

To say that Mr. Young would make a good congressman, would be saying too little for him. He will always be head shoulders above his constituents.

In searching the forests for congressional timber, the democrats will act wise if they will pick the giant oak bearing the brand of "Bill" Young.—Morehead Mountaineer.

The Democrats of this district could not honor a more worthy or capable man, and if he concludes to enter the race, take our word for it that any man who goes up against him will know he has been to the races when the contest is over.

TWO SALES OF TOBACCO

Held at the Burley Loose Leaf House Last Week.

Low in Quality in the Main, But Prices Generally Satisfactory.

There were two sales at the Burley Tobacco Loose Leaf warehouse here last week. The sale Wednesday was considered some better than the sale Saturday, but the quality of the tobacco offered both days was very poor with few exceptions. Any tobacco of reasonably good quality brought good prices and one basket at the sale Saturday brought 42 cents per pound, which is the top price here for the season. Prices ranged from 2 cents to 42 cents. There were more buyers present Wednesday than Saturday. The R. J. Reynolds Co. continue to lead the buyers in the quantity purchased, but several brokers are always present and buy quite an amount of tobacco.

She Knew Her Papa.

The teacher had the letters c-a-t on the blackboard and was trying to teach little Pansy Peevish to pronounce the word, but Pansy couldn't come it. "Think," said the teacher, "what is it that has some whiskers and comes upon the porch late at night when it is cold and begs to come into the house?" "Oh, I know!" exclaimed little Pansy, a great light dawning. "It's papa!" Now the merchandise sold by Hazelrigg & Son has characteristics just so strongly marked. It looks better and wears longer than the other kind. It is easy to recognize Hazelrigg merchandise.

Judge French is a splendid gentleman and his many friends are delighted to welcome him back home.

Seeds That Grow! At Half Price!

Again we can offer you the "Celebrated Woods Stubs Seeds," of Louisville, Ky., seeds that surely grow, as thousands of Montgomery farmers will gladly tell you. Would it not be foolish for you to pay 5c per paper for other brands of seeds, when you can get just as good and 6 other seeds from us at 2 papers for 5c?

We also have a large assortment of Flower Seeds at 2 papers for 5c.

Our Onion Sets are unusually good—very firm and small size.

We bought them early while cheap and once more we beat the other fellow by offering you them at 35 per gallon. Plenty of bulk garden seeds. Also seed potatoes. Come to the right place and save the difference at the Spot Cash Grocery.

Hanna's Green Seal "The Made-to-Wear Paint"

If you expect to do any painting, you are interested—you should be—in the quality of the paint to be used.

In any given job of painting, labor represents practically two-thirds, material one-third the cost.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

HANNA'S GREEN SEAL PAINT IS NOT A SECRET. This paint has the printed formula on every package.

The makers have confidence and take pride in the quality and tell the public the composition of the paint.

IS THIS OF ANY VALUE TO YOU? IT OUGHT TO BE.

CATTLE VERY HIGH

About 1400 On Market.
Very Few Good Ones
and Trade Slow.

Great Many Mules On the Market.
Prices High.

About 1400 cattle on the market court day. With a few exceptions the quality was common. Prices were high but trade was very slow, one of the slowest in years. The best steers sold at 5½ to 6c a pound. A great many farmers need cattle but have no feed and there is none in the country that can be bought.

A FEW SALES.

A. L. Cooper sold a bunch of 550-pound heifers to Sam Laythrum at 4½c. Mr. Laythrum bought a few nice 600-pound heifers of G. B. Allen at 5c.

Sam Wheeler sold to Jas. Ewing, of Stanton, Ky., 13 about 800 lb. steers at \$44.00 per head.

Joe H. Downing, of Lexington, bought some 800-pound bulls at 4c from Geo. Wireman.

G. B. Allen sold 19 500-lb. heifers to B. F. Powell, of Winchester, at 4½c.

F. H. Vanhoose sold 41 about 550-lb. yearlings to Wm. Botts at \$32.00 per head.

MULES.

A great many mules on the market and prices high.

E. O. Gowde sold a pair of 15.3 mare mules to W. A. Thomason at \$450.00.

I. F. Tabb sold Monday two pairs of fine mare mules for \$1,000.

Greenwade & Co. sold 20 mules at from \$150 to \$250 per head.

The trade today was run by farmers. Dealers said prices were too high for shippers. Prices were from \$15 to \$25 higher than last court.

Foolish Laws.

A Kansas City paper recently compiled a list of the foolish laws on the statute books of Kansas. Some of these laws and the penalties they impose are as follows:

"To fail to clean a henhouse once every twenty-four hours, \$25 fine.

"To sell a dime novel with an account of crime, \$100 fine.

"To keep tame pigeons, \$15.

"To talk back to a policeman, \$100.

"To 'sic' one dog on another, \$100.

"To hitch a horse to a weight weighing less than thirty pounds, \$25.

"To throw rice at newly-wed couples, \$100.

"To whittle on a fence, \$25.

"To spit a wad of gum in a street car, \$25.

"To have a barbed wire fence around your premises, \$25.

"To carry a stone out of another man's yard, \$50.

"To throw a banana peeling into Cow Creek, \$100.

"To watch a corn doctor work his jaw on the street, \$50."

All of these laws are not utterly foolish, but the offenses aimed at are in most cases of such trifling nature as scarcely to arise to the dignity of such legislation. They could be more appropriately dealt with in city and town ordinances, and some of them, indeed, are hardly sufficiently important to consume the time of a City Council or a board of village trustees. There is too much of a tendency in all legislatures to clutter up the statute books with useless and trivial laws. Kansas has gone no further in that line than some other States have gone, and it is probable that a search of the assembly acts of almost any State would bring to light a number of ridiculous laws which might better have been left off the books.

Most States have an amplitude of laws for the punishment of all offenses. The progress of the world demands new legislation from time to time to meet new conditions and problems. If our legislative bodies fulfill the requirements in this regard they will have so much serious business before them that they can well afford to leave the trivialities to the solons of the village councils.

CLAMS HOLD VICTIMS FAST

No Escape for Unfortunates Who Step Into the Shells of This Species of Clams.

Those of us whose acquaintance with clams embraces only the Little Neck variety are slow to think evil of any members of so delightful a family, but the inoffensive Little Neck has some big brothers who vigorously resent any attempt to pry into their personal affairs.

Men have accidentally stepped into the open jaws of these huge clams at low tide, and the clams, closing their jaws, have held them fast until the tide rose, when the men were drowned. Other men have reached for a lure in the form of a luminous spot. The instant they touched it the shells of the clam closed on their arms and in a few minutes they were drowned.

Some of these clams that trap men are found embedded in the coral reefs of the Pacific and Indian oceans, and the men captured are pearl divers. The flesh of one of these huge clams sometimes weighs 30 pounds, and added to that is the 500 pounds or more of shell. The shell is sometimes five feet long by two and three-quarters wide.

FAMILY OF OLD PERSONS.

Longevity records are claimed by the Nester family of Philadelphia. There are five brothers and one sister in the family and the ages of the sextet total 444 years, an average of 74 years for each member. The oldest of the family is William A. Nester of Nicetown, who is 84 years old. The others are Joseph H. Nester, Fox Chase, 80 years old; John J. Nester, Fern Rock, 74 years old; S. Wilson Nester, Tioga, 71 years old; George W. Nester, Paulsboro, N. J., 69 years old; Susan F. Sleiger, Nicetown, 66 years old.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY, & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

"The Harvester" Sold.

Announcement is made of the purchase by C. K. G. Billings, of New York City, of the champion trotting stallion, The Harvester, record 2:01. The exact price was not given out, but was stated to be "in excess of \$50,000." The negotiations on behalf of Mr. Billings were conducted by Joseph I. Markey, of the Chicago Horse Review, while J. T. Boyd, of Milwaukee, acted for the August Uihlein estate, which owned the horse.

This transaction makes Mr. Billings owner of the three world's champion trotters, the others being Lou Dillon 1:58½, champion mare, and Uhlman 1:58½, champion gelding.

SUCCESS IN SIGHT.

"I can't see why I should attempt to produce your play," said the manager. "There seems to be nothing in it."

"The mayor of this town has promised me that he will threaten to stop it if you put it on," the eager young dramatist replied.

"Hurrah! We'll put it in rehearsal at once, and in addition to being the author I want you to be the press agent."

WELL KNOWN MINISTER

Restored to Health by Vinol

Rev. D. Schneider, who is a well known minister in Rice Lake, Wis., writes:

"I had a very severe stomach trouble last year from which I was kept in bed three months. I had engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine, and I can gladly recommend it."

Prominent men from all over the country do not hesitate to endorse this wonderful tonic.

For twelve years Vinol has been sold on the "money back" plan, and every year strengthens its popularity and proves by continued tests that it will do what we claim for it. W. S. LLOYD, DRUGGIST, Mt. Sterling

Orchard Pruning.

If not previously given attention, the present month affords one of the best opportunities to give many orchards their much needed winter pruning. If done annually the pruning will usually be a light one, but in perhaps a majority of orchards in Kentucky, the work is neglected from year to year until more radical treatment may be necessary. In trees thus neglected, in which little recent growth has been made and with lowered vitality, a vigorous winter pruning tends to quicken the activity of the tree, and if followed by feeding, cultivation, and spraying, will often bring such trees into a profitable bearing condition within a short time.

A tree, however, already growing vigorously will require pruning somewhat guardedly, as a severe pruning at this season will often result in a rank growth of water sprouts during the spring and summer. Any such overgrowth of a tree when seen in a mature specimen is usually due to a strong soil, thorough tilling or over manuring, and may usually be checked by withholding tillage and manure and seeding down for a while.

In one of its fundamental objects pruning is not materially unlike the purpose of a farmer when, in his cornfield, by re-planting or thinning he tries to secure a uniform stand of plants, neither too few nor too many stalks in each hill, according to the kind of corn, fertility of the land, purposes of crop and other conditions.

So in a tree top it is important, among other things, for the largest production of fruit that there should be a full "stand" of branches, forming a round full-headed tree—with such modifications of form as are characteristic of the variety—well filled on all sides, yet no where so crowded as to prevent the free circulation of air and liberal admission of light.

The most common error in the practice of pruning is in cutting a branch several inches out from the main stem upon which it grew. Frequently this pruning is done with an ax, leaving stubs three to six inches long. This is a ruinous practice, for the long stub cannot be covered over with new healing tissue, and in a few years decay will be started in this spur and soon travel down into the main branch or trunk of the tree; finally resulting in a rotten hearted or hollow tree, a delightful place while it lasts for the woodpeckers to nest, but soon destined to be broken down in a gale of wind or sleet storm. Thousands of apple and other trees in Kentucky have been brought to an untimely end through such careless methods of pruning, as witnessed in orchards all over the State.

The orchard is no place for an axman. Let him stay in the wood lot.

In removing the branch of a tree it is of great importance to saw it off to the branch or trunk upon which it was growing. If it is a large and heavy branch, first make an undercut upon the lower side of the limb, then complete upon the upper side so that in falling away the branch may not tear off a strip of wood and bark, leaving an ugly wound upon the main branch. The cut surface, if more than an inch across, should be brushed with paint or some similar material to prevent decay starting in the wood before it has time to become healed over.

Pruning, however, is only one of several practices needed in most Kentucky orchards, and should be followed by spraying, by fertilizing and by tillage.

C. W. MATHEWS, Prof. of Horticulture and Botany.

One way of making birds sing is to cover their cages with dark cloth. It is almost as if the birds, like Paul and Silas, sing to solace themselves in their imprisonment. Can not this be reason why the dark curtain is sometimes over our lives?

THIS IS CERTAIN

The Proof That Mt. Sterling Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

Mrs. Enoch Bruton, 20 Harrison avenue, Mt. Sterling, Ky., says:

"When we used Doan's Kidney Pills in our family in 1908 they proved beneficial. I gladly confirm all that was said in their praise at that time. A member of the family was in bad shape with kidney trouble and suffered intensely from his back, when he got Doan's Kidney Pills at Duereson's drug store. The contents of one box gave him entire relief. I have used this remedy myself and it has helped me wonderfully."

PITH PRODUCTS IN DEMAND

Article of Commercial Importance is Now Being Exported From Formosa.

A Japanese merchant of Taipeh has forwarded to the United States, through Commercial Agent Lovett A. Wood, some stalks of pith, together with samples of paper, card, braid and other articles made therefrom by the savages of Formosa.

The pith is from a shrub growing less than two feet tall, and is as light as a feather. It is gathered by the savages and in a most marvelous manner the lengths of about ten inches are pared round with a knife, producing sheets that are smooth and uniform in thickness. England is now importing quantities of this pith-paper to make artificial flowers for ladies' hats. The oily nature of the pith when it is shaved into paper facilitates the coloring of the flowers.

The pith is also used for the tops of the helmets so much worn by men in the tropics during the hot months, when the sun's rays are dangerous, particularly to tourists, and for the additional reason that the pith hat can be made for very much less than the cork helmet.

AS A WOMAN THINKETH.

Talk about the power of mind over matter, did you ever hear of thinking yourself small?

That's what Charlotte Walker does in "The Trail of the Lonesome Pine." Miss Walker is not a short woman, nor thin.

She is quite five feet eight inches tall and built in proportion. Yet, as June Tolliver, she gives the impression of smallness. Her explanation is:

"I think myself tiny. I know June is young and slight and lithe, and so I put myself into the mental attitude of being young and slight and lithe, and if I succeed in making my audience see me so, it is all because I think so hard."

How about a mental obesity cure?

FIREPROOF.

Many persons remember the old reservoir which stood on Beacon hill, a massive stone structure occupying the land on which the state house extension was built. Several years ago the chief of the Paris fire department and a colonel in the French army visited Boston to make a study of fire risks, says the Traveler. Just before leaving Boston he called on the late Fire Chief William A. Greene and asked him if there were any fire-proof structures in Boston. "Only one," quickly replied Mr. Greene, "the reservoir on Beacon hill, and I'm not quite sure of that."

THE MYSTERY SOLVED.

"Why do you employ such elaborate circumlocution when you tell a man that you doubt his veracity?" "I find it better to use the longest words possible. If I can compel a man to consult the dictionary to ascertain just what I mean both our tempers get a chance to cool."

CORRESPONDENCE.

SIDEVIEW

The sick in this vicinity have all recovered.

News is scarce as everyone has gone to Montana.

Miss Mabel Booth visited her parents last Friday and Saturday.

Mrs. Geo. Sewell has returned home, after a pleasant visit to her daughter, Mrs. Ben Foley.

Mr. Fisher Mark and family have moved to the property which he bought from Mrs. Ella Priest.

The sales of Mr. Ben Foley and Mrs. Mary Turley were well attended and everything brought

pretty fair prices.

B. S. Willoughby, wife and little son spent Thursday with the latter's parents, Mr. and Mrs. Rufus Dunn.

HOWARD'S MILL (Mrs. W. W. Stevenson.)

The sick are all improving fast.

Everybody seems in better spirits since these pretty sunshiney days have come.

The Sunday school was well attended Sunday afternoon, with much interest.

Quite an enjoyable day was spent last Sunday at the home of Mr. and Mrs. William Thompson. The reunion of all his children and grandchildren were there.

There were quite a number out

at prayer meeting Sunday night. We trust when the weather gets better the interest will increase. Some people look back at the wonderful time of the past. Others are looking forward to a glorious future, overlooking the present, which is the most precious time in life. There never was a time when more good men and Christian women are needed, who will say: "Lord, what will Thou have me to do."

PLUM LICK.

(By James Kendall.)

G. W. Denton has returned from Martinsville, Indiana, much improved in health.

The sales of J. H. Turley and Ben Foley were largely attended and things sold very well.

The acreage for tobacco will be greatly reduced here this time. At least about all the tenants are leaving the country.

The streams have been considerably swollen during the recent rains. Claud McClain had a horse to wash away and drown.

W. P. Staggs lost his favorite driving horse from a wound, having been done some time, either snagged or shot.

The Stoops correspondent wants us to give an account of ourself for the past month. It can be easily done. Our better-half has been in bed for six weeks with la-grippe and pleurisy; our little daughter is just recovering from a severe case of diphtheria, and antitoxine only seven dollars a dose; a lot a hungry stock bawling to eat, and nothing much to feed; and the thermometer hovering around zero. Why not the correspondents forgive me, as the good editors have done.

HIGH TOP.

(By Marylee Henry.)

Mr. Dud Henry, who has been ill for the past week, is able to be out.

A delightful dance was given

last week by Mr. Mace Thomas in honor of Miss Sallie May, or Morehead.

Jack Caywood will begin tearing down his old house and will rebuild this summer.

Mrs. Mat Swope and son, Ernest, visited Dud Henry and family last Sunday.

Miss Sallie May has returned to her home at Morehead, after a two weeks' visit in Mt. Sterling.

STOOPS.

(By B. M. Goodan.)

Sunshine has sent joy into the hearts of all.

Only a few crops of tobacco remain unsold.

Many farmers begun burning tobacco beds Monday, the first this season.

Many of the dirt roads have become impassable.

Chas. Hall has returned to Indianapolis, after a visit to relatives in the county.

Chas. Triplett has bought the Clarke Foley farm, consisting of 25 acres, for \$2,300.00.

Stoops gives promise of enjoying a business boom soon.

Thos. Satterfield gave the young people a dance Thursday night. A fine time is reported.

Thos. N. Coons and Roy Byrd bought some corn of Paris parties for \$4.35 per bbl.

Walter H. Bridges and bride are expected to return Thursday from their wedding trip.

Roy McClain, of Bourbon county, came Sunday to visit S. F. Deal and wife.

A farmers' union local was organized at Judy Saturday night.

Last week completed the moving business. H. C. Ficklin moved to Mt. Sterling; Richard Wills moved here from Ewington and Wm. Shropshire from Peeled Oak.

KIDSVILLE.

(By Miss Alta Vivian.)

Quite a number from this place attended court at Mt. Sterling Monday.

J. G. Vivian spent Saturday night and Sunday with his sister, Mrs. Robert Eads, at Log Lick.

Mr. and Mrs. Fred Ests, of Nelson county, are visiting the latter's parents, Mr. and Mrs. J. M. Combs.

Rev. Smith, of Louisville, filled the regular appointment of Rev. Walker, pastor of Kiddville Baptist Church, Saturday and Sunday, also Sunday night.

Mrs. Julia West and family have moved from this place to Richmond. We regret to lose such good people, but wish them much success in their new home.

J. G. Vivian has moved to the house recently vacated by Mrs. West.

Misses Stella Williams, Minnie

Lee Haggard, Florence Rupard and Eliza Lockhart spent Sunday afternoon with Miss Alta Vivian.

The many friends of this place regret to hear of the death of Rev. Geo. Shepard, of Winchester.

JEFFERSONVILLE.

(By Miss Golden Byrd.)

Mr. George Graham, of Wolfe county, is visiting his uncle, Mr. J. T. Graham, of this place.

Mr. Walter Shubert, of this place, and Miss Carrie Kirkpatrick, of Stanton, were quietly united in marriage here last week.

Mrs. Sallie Stephen, of Ind., is visiting friends and relatives here.

Mr. Clyde Townsend, of Spout Springs, visited here Saturday night and Sunday.

Mrs. Emiline Stamper has taken her departure for Michigan.

Miss Anna Rupard, of Kiddville, visited Miss Mildred Smith last week.

Mr. Floyd Trimble and family will leave for Illinois this week, where they are expecting to make their future home.

Miss Lela Wilson, who has been attending school at Richmond, is at home for a few days.
